for AVM (State Security Service) personnel. This section consists of a two- story building, a three-story building, and a large garage, and is located at the intersection of Miskolci Street and Dorozzazi Street. Numerous motor vehicles were observed at the quarters at the beginning of April 1951.  8. A Soviet military hospital was located in Pestujhely (Q 18/H 52), a suburb of Budapest.  9. At the beginning of December 1950, a unit with five small trucks mounting lan revolving frame antennae was observed leaving the Petoofi Barracks, formerly Karoly Kiraly Barracks, on the west side of Budapest Street, Budapest. (6)  10. a Hungarian engineer battalion was stationed on Haros-Sziget Island. (7)  11. The Szent Laszlo Barracks on Welloi Street, Budapest, housed a recruiting office, the Budapest military post headquarters, and, according to local residents, also infantry units. (8)  Comments.  (1) The Soviet soldiers were probably just passing through Gyber. The Eudapers Barracks alleredly quartered a signal battalion in March 1950. The ranges of the radar set mentioned in the present report seem somewhat overestimated, since only large, stationary radar sets are believed to have ranges as stated in the report.  (3) The 2d Border Guard Co of the 1st Porder Guard En  is stationed in Satoraljaujhely.  (4) Karapanes Puszta is located in the border sector previously controlled by the llth Border Guard En in Miskunhalas.		
green service color, said at the beginning of February, that the barracks installation for tank troops which had been completed in the spring of 1950, was named kakest Patyas Barracks. (5)  7. A section of the former Ajax Flant in Budapest had been convorted into quark for AVH (State Security Service) personnel. This section consists of a two-story building, a three-story building, and a large garage, and is located at the intersection of Fiskolci Street and Dorozzmai Street. Buscovers motor vehicles were beginning of April 1951.  8. A Soviet military hospital was located in Postujhely (Q 48/H 52), a suburb of Budapest.  9. At the beginning of December 1950, a unit with five small trucks mounting lar revolving frame antennae was observed leaving the Petocfi Barracks, formerly Karoly Kiraly Barracks, on the west side of Budapests Street, Budapest. (6)  10. stationed on Haros-Sziget Island. (7)  11. The Szent Laszlo Barracks on Welloi Street, Budapest, housed a recruiting office, the Budapest military post headquarters, and, according to local residents, also infantry units. (8)  Convents.  (1) The Coviet soldiers were probably just passing through Gyoer. The Budapest Barracks allegedly quartered a signal battalion in March 1950. The ranges of the radar set mentioned in the present report seen conswhat overestimated, since only large, stationary radar sets are believed to have ranges as stated in the reports.  (2) The 2d Border Guard Co of the 1st Porter Guard En first Stationary radar sets are believed to have ranges as stated in the reports.  (3) The 2d Border Guard Co of the 1st Porter Guard En first Stationary radar sets are believed to have ranges as stated in the present set of the radar set are the last Border Guard En first Stationary Reports of the restationed in Tata. Budapest Border Service of the two restationed in Tata. Budapest Borders Borracks mentioned in paragraph 3. Since the devices on the trucks were probably light radar sets which are used by AM units, the information confirms the branch of s	,
